

**NORTH SQUARE BLUE OAK  
PRESENTS**

In anticipation of the Year of the Metal Tiger, you are invited to  
a special seminar followed by drinks and entertainment

**RMB vs US\$: Mutually Assured Destruction**

**The issue:**

What China will do with the RMB and its foreign exchange reserves is a central issue for the world economy in 2010. We present a seminar with our Chinese government advisors and the North Square Blue Oak research team.

**The speakers:**

**North Square Blue Oak's Chairman Derek Han**

Consultant to several Chinese government bodies, such as the State Administration of Foreign Exchange (SAFE), which governs China's exchange rate and holdings of foreign assets.

With in-depth knowledge of both sides of the debate, Mr Han will outline the ugly embrace in which the two nations are locked and what measures each side could take to extricate themselves – and at what cost.
